OXO Wine & Spirit

OXOlift

OXOline®

Features

- Allows you to move full barrels up to 500L
- Right/left rotation from the cockpit
- 1.40 m side shift
- Progressive hydraulic controls
- Illuminated viewing camera (produces a light field suitable for dark cellars)
- Color display (18 cm diagonal) in the cockpit
- Connection of 2 hydraulic quick connectors only
- 1 electrical quick-connect for camera (optional)

Advantages

- Easy to handle by a single operator
- No need to buy a forklift: most forklifts on the market can handle the job
- Your forklift can be transformed into a barrel positioner in just a few minutes
- Compact dimensions, very narrow width: 100 cm. No need for wide aisles (110 to 135 cm according to barrel type)
